Why do we die? And what happens to us when we die? What is the most lethal animal for human beings? And the last sense we lose before we die? Did you know that there are dogs that smell death? And that there are species that reproduce only once and then die? Why don't we talk about death?

Death is part of the cycle of life. Death is as natural as birth. When we are born, we are all destined to die. It is one of the sacred laws of nature.
