

All About Who I Am 9+

Stine Jensen

'Know thyself' has become a famous saying in philosophy. But how do you know who you are? And how do you get to know yourself? Is your character set in stone from the moment you were born, or does your upbringing influence the way you are, and will be? What does your name say about you? And if everyone is unique, why do we feel the need to fit in so eagerly?

Philosopher Stine Jensen explores these questions in *All About Who I Am*. In her signature way she makes her readers think, feel, talk and philosophize about important questions. This beautifully made edition is for all ages, and is illustrated by Marijke Klompmaker. She and Stine previously collaborated on *Everything I Feel – The Big Book of Emotions* (roughly 13.000 copies sold in the Netherlands) and *Everything That Once Was* (roughly 10.000 copies sold in the Netherlands).
