Why do we die? And what happens to us when we die? What is the most lethal animal for human beings? And the last sense we lose before we die? Did you know that there are dogs that smell death? And that there are species that reproduce only once and then die? Why don't we talk about death?

Death is part of the cycle of life. Death is as natural as birth. When we are born, we are all destined to die. It is one of the sacred laws of nature.

XIMO ABADÍA

His passion for comics and drawing began when he was a little boy who liked to draw on his desk in class. A habit that stayed with him until university, and which later led him to become an internationally published author and illustrator of children's books, graphic novels and comics, recognised at prestigious festivals such as Bologna and Angoulême.

A fun and in-depth informative book
with everything you ever wanted to
know about one of the most common
animals in a human being's life
(especially if they are young): LICE!

Because lice... How do they move
from head to head? Do they fly?
What do they feed on? How do they
reproduce? How long do they live?
What's the best way to get rid of
them?

This book tells us everything about climate change, an ecological problem that endangers life as we know it, because... Do we really understand what climate change is and how it has occurred? Do we really know how it affects our woodlands, water or animals, and how it affects us? And above all, do we know what we can do to tackle the problem?
